PARALLEL SESSION PRESENTERS' INSTRUCTIONS

Presentation Technology

Computer and projector will be available in each room for presentations. Please use either PowerPoint (.ppt) or Portable Document Format (.pdf) as presentation formats- Prezi is also available if it is already fully downloaded. Presenters are requested to bring their presentations on a USB stick under all circumstances. Connecting personal laptops is discouraged to avoid excessive loss of time.

Presenters

Presenters are invited to come to the room 10 minutes prior to the start of the session to upload their presentation and check functionality- all parallel sessions have a break immediately preceding them for you to make use of. We recommend using your name in the file name and avoiding file names such as GCET18 or PRESENTATION to avoid confusion. If you need technical assistance and cannot spot an assistant, kindly call 520.982.0766 and request it indicating your conference room name. Presenters will introduce themselves. Please be aware of your duties as timekeeper, if applicable.

Duration

The time available for each parallel session is an hour and a half. Therefore, parallel sessions with 5 presenters will have 18 minutes for each to present and take questions, and parallel sessions with 4 presenters will have 22 minutes for each to present and take questions. The timekeepers will give you a gentle 5 minute warning when your time is almost up and then will inform you when your time is up. The presenter will be in charge of deciding when to transition from presenting to taking questions, and will themselves take questions from the audience.

Timekeeper

Timekeepers are indicated with an asterisk (*) in the full schedule, and are always the last presenters in the parallel sessions. Timekeepers, like the other presenters, are invited to come to the room 10 minutes prior to the start of the session. Their responsibilities include ensuring that the time is equally divided across all presentations, NOT to moderate the discussion. It is recommended that the timekeepers use a timer or a timer function on their phone to keep track of the time, and then to provide 5-minute and time's up reminders to the presenters preceding them. It will be in everyone's interest to start on time and remain respectful of others' time.

*= The last presenter in every parallel session will act as a timekeeper for the other presenters of that session speaking before them

All locations are at Westward Look Wyndham Grand Resort & Spa unless otherwise noted.
